PROFILE

Elite Lead Developer & Full-Stack Architect specializing in high-performance web applications at scale. Expert in React/Node.js/Python with a passion for transforming legacy systems into modern, AI-enhanced platforms. Proven leader who mentors teams to deliver 60%+ efficiency gains and 35%+ engagement growth through technical excellence. Driving Africa's digital future through cutting-edge engineering and scalable solutions.

EXPERIENCE

Skunkworks Africa (Conglomerate)

January 2025 - Present

Lead Developer

Technologies: Angular 18, MongoDB, .NET, RESTful APIs, Adobe Experience Manager (AEM) 6.x

Key Responsibilities:

- **Technical Leadership:** Spearheaded innovation across Skunkworks Digital (software/products), Skunkworks Academy (edtech), and LMS, driving R&D in AI, cloud, and scalable architectures.
- **Cross-Functional Team Management:** Led agile engineering teams, mentored developers, and aligned tech execution with business goals for rapid product iteration.
- **Secure & Scalable Systems:** Designed high-performance digital platforms and a robust, mobile-friendly LMS with cybersecurity best practices for African markets.
- **EdTech Ecosystem Growth:** Enhanced Skunkworks Academy's LMS with AI-driven learning, certifications, and offline access to upskill tech talent across Africa.

City Stays - Airbnb-like Travel Platform

2023-2024

Full Stack Developer

Technologies: Angular 18, MongoDB, .NET, RESTful API's, Adobe Experience Manager (AEM) 6.x

Designed and developed a comprehensive travel platform enabling users to book stays, rent cars, flights, and event tickets. Streamlined travel planning and booking process.

Key Features

- User profiles for hosts and travelers
- Search and booking functionality
- Integrated payment gateway
- Real-time availability and pricing updates
- Car rental and flight booking integrations

SecureBank - Advanced Banking Security App

2021-2023

Frontend Developer

Technologies: React, Node.js, MongoDB, TypeScript, RESTful API's

Developed a secure banking app with dual PIN code functionality for enhanced security. Users can manage accounts, transfer funds, and receive alerts.

Key Features

- Dual PIN code system (normal and under duress)
- Account management and transaction tracking
- Fund transfer and payment processing
- Real-time alerts and notifications
- Enhanced security measures for user protection
